

# 6 MONTHS INDUSTRIAL TRAINING

For B.Tech | M.Tech | BSC | MSC | BCA | MCA

**DRIVES YOU TO INDUSTRY**

## Objective of the Summer Training / Industrial Training

The basic objective of industrial training is to prepare students ready to enter into the industry or corporate as per their area of specialization and skills and to develop the relationship between academics and professional part of the streams.

It gives students practical experience and helps them in developing the characteristics of teamwork. Work with professionals and get the real-life exposure of the relevant industry.

## Why BRAINWAVE'S 6 Weeks/6 Months Industrial Training Program?

**BRAINWAVE'S** industrial training program will help the students to develop a defined set of technical skills which will enable them to apply their knowledge in practical work situations. The program acquaints the students with the working atmosphere in the corporate world while uplifting their self-confidence and leadership ability so that they can efficaciously execute the task they are assigned.

**Highly Experienced And Skilled Faculty:** The faculty at **BRAINWAVE** is highly skilled and holds years of experience in the field of teaching. They employ effective teaching methods and techniques to make sure that each student is able to comprehend the concepts with ease. Furthermore, doubt sessions and practice tests take place on a regular basis to keep a check on the performance of the student.

**Unlimited Practice Sessions:** The industrial training program consists of unlimited practice sessions besides other facilities. Students get ample amount of time and opportunities make practical use of the theoretical knowledge they have learned over a period of time. The unlimited practice sessions help students make their groundwork strong while helping them to identify their weak areas and working upon them.

**Professional Atmosphere:** In this industrial training program, students get to learn and engage in the practical application of theoretical concepts in a very professional atmosphere. This not only prepares them for the tough competition in the industry but provides them with the experience of working in a corporate atmosphere so that they can perform efficiently when they get employed.

**Certificate:** Once the industrial training program has successfully completed, we provide our students with a valuable certificate which serves as a lifetime accomplishment and helps them secure a lucrative job in the corporate world.

# TECHNOLOGY

## PLATFORM

- ❖ Blockchain
- ❖ Cloud Computing
- ❖ Python /R with Data Science
- ❖ Machine Learning/Deep Learning
- ❖ Data Analytics/Business Analytics using R/Python
- ❖ BIG DATA/HADOOP with ECO SYSTEM
- ❖ Web Technologies using AngularJS/NodeJS/MongDB(MEAN Stack)
- ❖ PHP/MySQL Development (HTML+CSS+JavaScript/jQuery+XML)/Laravel
- ❖ JSE(Java Standard Edition)-
- ❖ JEE(Java Enterprise Edition) -
- ❖ C, Advanced C++ Programming
- ❖ Linux Operating System
- ❖ IOT(Internet of Things)
- ❖ Data Science using Python
- ❖ Data Science using R
- ❖ Machine Learning with Python
- ❖ Deep Learning with Python
- ❖ Business Analytics
- ❖ Big Data Science

**B.TECH | M.TECH | BCA | MCA | B.SC(CS/IT) | Diploma** Students Training in Artificial Intelligence ,Data Analytics,Machine Learning ,Deep Learning, Python, C, C++, Java Programming , Web Design, Web Development.

# Salient Features

- Personalized Attention
- Stimulating Research-Oriented Environment
- Exposure to professional work atmosphere
- Opportunities of most advanced technologies like Internet of Things, Machine Learning, Deep Learning, Blockchain & many more.
- Short terms and long term internship programs are available
- Assignments / Project drawn from the work environment
- Presentation, Live Demos, Interactive Question & Answer sessions and comprehensive reading material.
- Get thorough insight into Industry Standard.
- Hands on Demonstrations of Latest Technologies.
- Software Tool Kit & Study Material
- Maximum 3-4 students in a batch
- Special Discount for Group Students.
- Unlimited Practice session with WI FI facility and system
- Regular, Fast Track, Weekend Training mode are available
- Online Training Facility are available
- 25+ years industry expert trainers will teach you
- Live project on your desired topics or college topics
- Training Certificate after course completion

# Terms & Condition

- Course Fee is Non-refundable and Non-transferable.
- Certificates will not be issued before the completion of the training.

## Certification

### Once the Training Gets over, Hard Copy of Training Certificate & Internship Letter

- All courses under Industrial Training Program are certified by **BRAINWAVE**.
- All trainee will receive an Industrial Training Certificate from **BRAINWAVE**.
- All Participants will get Internship Letter cum Recommendation on Company Letterhead of **BRAINWAVE**.

### Online training allows you to fit your training around your lifestyle and work schedules..

Online training is web-based so you can log in from anywhere: home, office or when working remotely. Because you are not tied to a fixed location to complete training, this reduces the tyranny of long distance travel. And if your project or work schedules change, you can still carry out your training online. This is beneficial for both individuals and organizations. Look for online training that delivers a practical and personalized training and development experience.
